

## 故事好好聽：認識陳五福醫師

1. 陳五福醫師被尊稱為台灣的？

2. 陳五福醫師在哪裡出生？

3. 陳五福醫師最厲害、最強的是哪一個醫科呢？

4. 公元1959年，陳五福醫師成立什麼習藝所呢？

5. 陳五福醫師如何用行動幫助視障的人呢？請用自己的話寫出來。

### 金句學一學：我要能看見

我要能看見！（馬可福音十51）

1. 想想看，當雙眼看不到東西時，生活中會出現哪些不方便的地方呢？

2. 生活中，視障朋友們會需要哪些協助他們的工具呢？

 行動趴趴GO：愛盲導引四步驟

大家依照以下四個步驟來幫助視障的朋友：

**問** 主動詢問視障朋友是否需要協助。

需要幫忙嗎？

A cartoon illustration showing a person wearing sunglasses and a white shirt with three buttons. They are looking at another person who is also wearing a white shirt with three buttons. The person with sunglasses has a question mark above their head, indicating they are asking for help. The other person has a neutral expression.

**拍** 視障朋友需要他人引導協助時，會以自己的手背輕輕碰觸對方，然後將手輕扣在對方的手肘位置，接受他人的引導。

A cartoon illustration showing a person with a white shirt and three buttons tapping the hand of a person with sunglasses. The person with sunglasses is holding a cane. The person with the white shirt is standing to the left, and the person with sunglasses is to the right.

**引** 引導視障朋友時，請在前方約略保持半步到一步的距離，並讓視障朋友走在自己的右後方。

保持在右後方一步距離

A cartoon illustration showing a person with a white shirt and three buttons standing in front of a person with sunglasses. The person with sunglasses is holding a cane. An arrow points from the person with the white shirt to the person with sunglasses, indicating the distance between them. The person with sunglasses is walking towards the right.

**報** 引導時，路況若有任何變化，例如：高低落差、樓梯、坑洞、阻礙物等，應提前告知視障朋友，依照步伐的大小，提醒視障朋友該如何通過。如果遇到上方有障礙物，可以讓視障朋友的手輕輕觸碰邊緣，帶領他低身通過。

小心階梯！

A cartoon illustration showing a person with a white shirt and three buttons pointing towards a staircase. A person with sunglasses is standing on the staircase, holding a cane. The person with the white shirt is standing on the ground level, looking up at the person on the staircase. The person with sunglasses has a surprised expression.

學會了上面的導引四步驟，我們就來親自試試看，如何才能順利帶領視障朋友通過障礙，順利走到目的地吧！
